MEMORANDUM FOR: The Adjutant General  
Department of the Army

SUBJECT: Mobilization Designee Ceiling

1. Receipt of your letter, AGPR-D 320.2 Org Res (24 Oct 53) dated 19 October 1953, is acknowledged.

2. It is regretted that the authorized ceiling of mobilization designee strength for the Central Intelligence Agency has been reduced to 125. This curtailment will affect a considerable number of employees who are making a serious effort to retain an active reserve status through affiliation with Mobilization Designation Detachment 11.

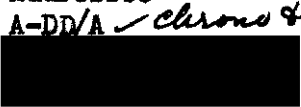

3. So long as this ceiling remains in effect, the limitations will be complied with. However, an effort will be made to explore the possibilities for establishing some other form of unit within the Central Intelligence Agency to permit more than 125 Army Reservists to maintain an active status through participation in the training program which has been organized and successfully implemented.
